03. In opening remarks, the Project Director, PMO-EFAP, KPID, GoKP welcomed all the participants (list attached as **Annexure-A**) for sparing their precious time and attended the pre-bid meeting. Thereafter, the Project Director explained in detail, the salient features of the Project, its aims, objectives, major components of the Project, its implementation schedule and overall utility of the services to the general public to be provided through this project. After that, Project Director, directed Deputy Project Director to explain the Bidding Documents in detail.

04. Deputy Project Director with the assistance of Procurement Specialist ADB explained the bidding documents particularly the contents of Section-1 (Instructions to Bidders), Section-2 (Bid Data Sheet), Section-3 (Evaluation and Qualification Criteria), Section-4 (Bidding Forms), Section-6 (Employer's Requirements) and Section-8 (Particular Conditions of the Contract). The meeting was held in two parts. During the first part, Deputy Project Director explained in detail by reading through the important clauses on preparation of bids and application of qualification criteria. Moreover, the Section-4 of the bidding documents were explained to the prequalified bidders covering the standard format of different forms and the bidders were stressed to use the standard format of forms while submitting the bids. Further, Section-6 of the bidding documents were explained and clarified the Employer's Requirement to the bidders.

05. During the second part of the meeting, participants were encouraged to ask any questions they had. Bidders were instructed to send their queries in writing to the Project Management Unit (PMU) for written responses and guidance. All the bidders indicated that after a detailed presentation of the bidding documents, they had no remaining questions.

06. The meeting was concluded with a vote of thanks to and from all the participants. The queries received in PMU and corresponding replies thereto are attached as **Annexure-B**.

Annexure-B

The queries raised and the actions to be taken are details below:

S/N o	Queries	Reply
1	<p>EFAP/KPIC/CW-14: PACKAGE-14: REPAIR AND REHABILITATION OF FLOOD PROTECTION STRUCTURES, DISTRICT SWAT – SWAT IRRIGATION DIVISION-I</p> <p>The bidders were of the opinion that the requirement of 02 numbers of Concrete Batching Plant set forth in the equipment requirement (Section-6) of the bidding documents is not required as per the BOQ item specification. They believed that the BOQ item specification require stationary mixture machine.</p>	<p>The equipment requirement set forth in the bidding document is for evaluation of capacity and capability of the bidder. The actual work done will be as per the specifications stated in the bidding documents. The final decision of equipment mobilization will fall under the jurisdiction of The Project Manager / The Engineer after the award of contract.</p>
2	<p>Price Adjustment Package 14, 13, 08, 03</p> <p>The bidders inquired whether price adjustment will impact the evaluation of the bid price as it involves variable weightages.</p>	<p>The evaluation will be based on the evaluated bid price against the BOQs and as per the criteria set forth in the bidding documents.</p>
3	<p>Price Adjustment: EFAP/KPIC/CW-14: PACKAGE-14:</p> <p>We inquired about the price adjustment data table (Serial No. iv) All types of steel: The bidders requested to know if All types of steel include item no 19-13-a-03 Provide & weave GI wire netting for wire crates 6"x9" mesh: 8 SWG wire.</p>	<p>The price adjustment table includes “all types of steel” i.e., based on current rate of mild steel at the time of price adjustment calculation. However, the price adjustment factor will be applied to the overall invoice of contractor, including G.I. wire netting.</p>
4	<p>Price Adjustment: EFAP/KPIC/CW-14: PACKAGE-14:</p> <p>It is requested to include stone in the table of adjustment data. It is suggested to drop cement and replace it with stone as it has a much higher impact on the contract price.</p>	<p>Cement is included in the price adjustment table, which is a widely used material in construction works and represents the general trend of price fluctuation in the industry. Therefore, cement is kept as an</p>
