- 2.1 The Client named in the **Data Sheet** intends to select a Consultant from those listed in the Request for Proposals (RFP), in accordance with the method of selection specified in the **Data Sheet**.
- 2.2 The shortlisted Consultants are invited to submit a Technical Proposal and a Financial Proposal, or a Technical Proposal only, as specified in the **Data Sheet**, for consulting services required for the assignment named in the **Data Sheet**. The Proposal will be the basis for negotiating and ultimately signing the Contract with the selected Consultant.
- 2.3 The Consultants should familiarize themselves with the local conditions and take them into account in preparing their Proposals, including attending a pre-proposal conference if one is specified in the **Data Sheet**. Attending any such pre-proposal conference is optional and is at the Consultants' expense.
- 2.4 The Client will timely provide, at no cost to the Consultants, the inputs, relevant project data, and reports required for the preparation of the Consultant's Proposal as specified in the **Data Sheet**.

3. Conflict of Interest

- 3.1 The Consultant is required to provide professional, objective, and impartial advice, at all times holding the Client's interests paramount, strictly avoiding conflicts with other assignments or its own corporate interests, and acting without any consideration for future work.
- 3.2 The Consultant has an obligation to disclose to the Client any situation of actual or potential conflict that impacts its capacity to serve the best interest of its Client. Failure to disclose such situations may lead to the disqualification of the Consultant or the termination of its Contract and/or sanctions by the Bank.
 - 3.2.1 Without limitation on the generality of the foregoing, the Consultant shall not be hired under the circumstances set forth below:

a. Conflicting Activities

- (i) Conflict between consulting activities and procurement of goods, works or non-consulting services: a firm that has been engaged by the Client to provide goods, works, or non-consulting services for a project, or any of its Affiliates, shall be disqualified from providing consulting services resulting from or directly related to those goods, works, or non-consulting services. Conversely, a firm hired to provide consulting services for the preparation or implementation of a project, or any of its Affiliates, shall be disqualified from subsequently providing goods or works or non-consulting services resulting from or directly related to the consulting services for such preparation or implementation.

b. Conflicting Assignments

- (ii) Conflict among consulting assignments: a Consultant (including its Experts and Sub-consultants) or any of its Affiliates shall not be hired for any assignment that, by its nature, may be in conflict with another assignment of the Consultant for the same or for another Client.

c. Conflicting Relationships

- (iii) Relationship with the Client's staff: a Consultant (including its Experts and Sub-consultants) that has a close business or family relationship with a professional staff of the Borrower (or of the Client, or of implementing agency, or of a recipient of a part of the Bank's financing) who are directly or indirectly involved in any part of (i) the preparation of the Terms of Reference for the assignment, (ii) the selection process for the Contract, or (iii) the supervision of the Contract, may not be awarded a Contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the Bank throughout the selection process and the execution of the Contract.

4. Unfair Competitive Advantage

- 4.1 Fairness and transparency in the selection process require that the Consultants or their Affiliates competing for a specific assignment do not derive a competitive advantage from having provided consulting services related to the assignment in question. To that end, the Client shall indicate in the **Data Sheet** and make available to all shortlisted Consultants together with this RFP all information that would in that respect give such Consultant any unfair competitive advantage over competing Consultants.

5. Fraud and Corruption

- 5.1 The Bank requires compliance with the Bank's Anti-Corruption Guidelines and its prevailing sanctions policies and procedures as set forth in the WBG's Sanctions Framework, as set forth in Section 6.
- 5.2 In further pursuance of this policy, Consultants shall permit and shall cause their agents (where declared or not), sub-contractors, subconsultants, service providers, suppliers, and personnel, to permit the Bank to inspect all accounts, records and other documents relating to any shortlisting process, Proposal submission, and contract performance (in the case of award), and to have them audited by auditors appointed by the Bank.

6. Eligibility

- 6.1 The Bank permits consultants (individuals and firms, including Joint Ventures and their individual members) from all countries to offer consulting services for Bank-financed projects.
- 6.2 Furthermore, it is the Consultant's responsibility to ensure that its Experts, joint venture members, Sub-consultants, agents (declared or not), sub-contractors, service providers, suppliers and/or their employees meet the eligibility requirements as established by the Bank in the applicable Procurement Regulations.

- 6.3 As an exception to the foregoing ITC 6.1 and ITC 6.2 above:

a. Sanctions

- 6.3.1 A Consultant that has been sanctioned by the Bank, pursuant to the Bank's Anti-Corruption Guidelines and in accordance with its prevailing sanctions policies and procedures as set forth in the WBG's Sanctions Framework as described in Section VI, Fraud and Corruption, paragraph 2.2 d., shall be ineligible to be shortlisted for, submit proposals for, or be awarded a Bank-financed contract or benefit from a Bank-financed contract, financially or otherwise, during such period of time as the Bank shall have determined. The list of debarred firms and individuals is available at the electronic address specified **in the PDS**.

b. Prohibitions

- 6.3.2 Firms and individuals of a country or goods manufactured in a country may be ineligible if so indicated in Section 5 (Eligible Countries) and:
- (a) as a matter of law or official regulations, the Borrower's country prohibits commercial

relations with that country, provided that the Bank is satisfied that such exclusion does not preclude effective competition for the provision of Services required; or

- (b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any import of goods from that country or any payments to any country, person, or entity in that country.

c. Restrictions for State-Owned Enterprises

6.3.3 State-owned enterprises or institutions in the Borrower's country may be eligible to compete and be awarded a contract only if they can establish, in a manner acceptable to the Bank, that they: (i) are legally and financially autonomous, (ii) operate under commercial law, and (iii) are not under supervision of the Client.

d. Restrictions for Public Employees

6.3.4 Government officials and civil servants of the Borrower's country are not eligible to be included as Experts, individuals, or members of a team of Experts in the Consultant's Proposal unless:

- (i) the services of the government official or civil servant are of a unique and exceptional nature, or their participation is critical to project implementation; and
- (ii) their hiring would not create a conflict of interest, including any conflict with employment or other laws, regulations, or policies of the Borrower.

e. Borrower Debarment

6.3.5 A firm that is under a sanction of debarment by the Borrower from being awarded a contract is eligible to participate in this procurement, unless the Bank, at the Borrower's request, is satisfied that the debarment; (a) relates to fraud or corruption, and (b) followed a judicial or administrative proceeding that afforded the firm adequate due process.

B. Preparation of Proposals

7. General Considerations

7.1 In preparing the Proposal, the Consultant is expected to examine the RFP in detail. Material deficiencies in

providing the information requested in the RFP may result in rejection of the Proposal.

8. Cost of Preparation of Proposal

8.1 The Consultant shall bear all costs associated with the preparation and submission of its Proposal, and the Client shall not be responsible or liable for those costs, regardless of the conduct or outcome of the selection process. The Client is not bound to accept any proposal, and reserves the right to annul the selection process at any time prior to Contract award, without thereby incurring any liability to the Consultant.

9. Language

9.1 The Proposal, as well as all correspondence and documents relating to the Proposal exchanged between the Consultant and the Client, shall be written in the language(s) specified in the **Data Sheet**.

10. Documents Comprising the Proposal

10.1 The Proposal shall comprise the documents and forms listed in the **Data Sheet**.

10.2 If specified in the **Data Sheet**, the Consultant shall include a statement of an undertaking of the Consultant to observe, in competing for and executing a contract, the Client country's laws against fraud and corruption (including bribery).

10.3 The Consultant shall furnish information on commissions, gratuities, and fees, if any, paid or to be paid to agents or any other party relating to this Proposal and, if awarded, Contract execution, as requested in the Financial Proposal submission form (Section 4).

11. Only One Proposal

11.1 The Consultant (including the individual members of any Joint Venture) shall submit only one Proposal, either in its own name or as part of a Joint Venture in another Proposal. If a Consultant, including any Joint Venture member, submits or participates in more than one proposal, all such proposals shall be disqualified and rejected. This does not, however, preclude a Sub-consultant, or the Consultant's staff from participating as Key Experts and Non-Key Experts in more than one Proposal when circumstances justify and if stated in the **Data Sheet**.

12. Proposal Validity

12.1 Proposals shall remain valid until the date specified in the **Data Sheet** or any extended date if amended by the Client in accordance with ITC 13.1.1.

12.2 During this period, the Consultant shall maintain its original Proposal without any change, including the

availability of the Key Experts, the proposed rates and the total price.

12.3 If it is established that any Key Expert nominated in the Consultant's Proposal was not available at the time of Proposal submission or was included in the Proposal without his/her confirmation, such Proposal shall be disqualified and rejected for further evaluation, and may be subject to sanctions in accordance with ITC 5.

a. Extension of Proposal Validity

12.4 The Client will make its best effort to complete the negotiations and award the contract prior to the date of expiry of the Proposal validity. However, should the need arise, the Client may request, in writing, all Consultants who submitted Proposals prior to the submission deadline to extend the Proposals' validity.

12.5 If the Consultant agrees to extend the validity of its Proposal, it shall be done without any change in the original Proposal and with the confirmation of the availability of the Key Experts, except as provided in ITC 12.7.

12.6 The Consultant has the right to refuse to extend the validity of its Proposal in which case such Proposal will not be further evaluated.

b. Substitution of Key Experts at Validity Extension

12.7 If any of the Key Experts become unavailable for the extended validity period, the Consultant shall seek to substitute another Key Expert. The Consultant shall provide a written adequate justification and evidence satisfactory to the Client together with the substitution request. In such case, a substitute Key Expert shall have equal or better qualifications and experience than those of the originally proposed Key Expert. The technical evaluation score, however, will remain to be based on the evaluation of the CV of the original Key Expert.

12.8 If the Consultant fails to provide a substitute Key Expert with equal or better qualifications, or if the provided reasons for the replacement or justification are unacceptable to the Client, such Proposal will be rejected.

c. Sub-Contracting

12.9 The Consultant shall not subcontract the whole of the Services.

13. Clarification and Amendment of RFP

13.1 The Consultant may request a clarification of any part of the RFP during the period indicated in the **Data Sheet** before the Proposals' submission deadline. Any request for

clarification must be sent in writing, or by standard electronic means, to the Client's address indicated in the **Data Sheet**. The Client will respond in writing, or by standard electronic means, and will send written copies of the response (including an explanation of the query but without identifying its source) to all shortlisted Consultants. Should the Client deem it necessary to amend the RFP as a result of a clarification, it shall do so following the procedure described below:

13.1.1 At any time before the proposal submission deadline, the Client may amend the RFP by issuing an amendment in writing or by standard electronic means. The amendment shall be sent to all shortlisted Consultants and will be binding on them. The shortlisted Consultants shall acknowledge receipt of all amendments in writing.

13.1.2 If the amendment is substantial, the Client may extend the proposal submission deadline to give the shortlisted Consultants reasonable time to take an amendment into account in their Proposals.

13.2 The Consultant may submit a modified Proposal or a modification to any part of it at any time prior to the proposal submission deadline. No modifications to the Technical or Financial Proposal shall be accepted after the deadline.

14. Preparation of Proposals Specific Considerations

14.1 While preparing the Proposal, the Consultant must give particular attention to the following:

14.1.1 If a shortlisted Consultant considers that it may enhance its expertise for the assignment by associating with other consultants in the form of a Joint Venture or as Sub-consultants, it may do so with either (a) non-shortlisted Consultant(s), or (b) shortlisted Consultants if permitted in the **Data Sheet**. In all such cases a shortlisted Consultant must obtain the written approval of the Client prior to the submission of the Proposal. When associating with non-shortlisted firms in the form of a joint venture or a sub-consultancy, the shortlisted Consultant shall be a lead member. If shortlisted Consultants associate with each other, any of them can be a lead member.

14.1.2 The Client may indicate in the **Data Sheet** the estimated Key Experts' time input (expressed in person-month) or the Client's estimated total cost of the assignment, but not both. This estimate is indicative and the Proposal shall be based on the Consultant's own estimates for the same.

14.1.3 If stated in the **Data Sheet**, the Consultant shall include in its Proposal at least the same time input (in the same unit as indicated in the **Data Sheet**) of Key Experts, failing which the Financial Proposal will be adjusted for the purpose of comparison of proposals and decision for award in accordance with the procedure in the **Data Sheet**.

14.1.4 For assignments under the Fixed-Budget selection method, the estimated Key Experts' time input is not disclosed. Total available budget, with an indication whether it is inclusive or exclusive of taxes, is given in the **Data Sheet**, and the Financial Proposal shall not exceed this budget.

15. Technical Proposal Format and Content

15.1 The Technical Proposal shall be prepared using the Standard Forms provided in Section 3 of the RFP and shall comprise the documents listed in the **Data Sheet**. The Technical Proposal shall not include any financial information. A Technical Proposal containing material financial information shall be declared non-responsive.

15.1.1 Consultant shall not propose alternative Key Experts. Only one CV shall be submitted for each Key Expert position. Failure to comply with this requirement will make the Proposal non-responsive.

15.2 Depending on the nature of the assignment, the Consultant is required to submit a Full Technical Proposal (FTP), or a Simplified Technical Proposal (STP) as indicated in the **Data Sheet** and using the Standard Forms provided in Section 3 of the RFP.

16. Financial Proposal

16.1 The Financial Proposal shall be prepared using the Standard Forms provided in Section 4 of the RFP. It shall list all costs associated with the assignment, including (a) remuneration for Key Experts and Non-Key Experts, (b) reimbursable expenses indicated in the **Data Sheet**.

- a. Price Adjustment** 16.2 For assignments with a duration exceeding 18 months, a price adjustment provision for foreign and/or local inflation for remuneration rates applies if so stated in the **Data Sheet**.
- b. Taxes** 16.3 The Consultant and its Sub-consultants and Experts are responsible for meeting all tax liabilities arising out of the Contract unless stated otherwise in the **Data Sheet**. Information on taxes in the Client's country is provided in the **Data Sheet**.
- c. Currency of Proposal** 16.4 The Consultant may express the price for its Services in the currency or currencies as stated in the **Data Sheet**. If indicated in the **Data Sheet**, the portion of the price representing local cost shall be stated in the national currency.
- d. Currency of Payment** 16.5 Payment under the Contract shall be made in the currency or currencies in which the payment is requested in the Proposal.

C. Submission, Opening and Evaluation

- 17. Submission, Sealing, and Marking of Proposals**
- 17.1 The Consultant shall submit a signed and complete Proposal comprising the documents and forms in accordance with ITC 10 (Documents Comprising Proposal). Consultants shall mark as "CONFIDENTIAL" information in their Proposals which is confidential to their business. This may include proprietary information, trade secrets or commercial or financially sensitive information. The submission can be done by mail or by hand. If specified in the **Data Sheet**, the Consultant has the option of submitting its Proposals electronically.
- 17.2 An authorized representative of the Consultant shall sign the original submission letters in the required format for both the Technical Proposal and, if applicable, the Financial Proposal and shall initial all pages of both. The authorization shall be in the form of a written power of attorney attached to the Technical Proposal.
- 17.2.1 A Proposal submitted by a Joint Venture shall be signed by all members so as to be legally binding on all members, or by an authorized representative who has a written power of

c. Financial Negotiations

28.6 The negotiations include the clarification of the Consultant’s tax liability in the Client’s country and how it should be reflected in the Contract.

28.8 In the case of a Time-Based contract, unit rates negotiations shall not take place, except when the offered Key Experts and Non-Key Experts’ remuneration rates are much higher than the typically charged rates by consultants in similar contracts. In such case, the Client may ask for clarifications and, if the fees are very high, ask to change the rates after consultation with the Bank. Appendix A. Financial Negotiations - Breakdown of Remuneration Rates

1. Review of Remuneration Rates

- 1.1. The remuneration rates are made up of salary or a base fee, social costs, overheads, profit, and any premium or allowance that may be paid for assignments away from headquarters or a home office. An attached Sample Form can be used to provide a breakdown of rates.
- 1.2. If the RFP requests submission of a technical proposal only, the Sample Form is used by the selected Consultant to prepare for the negotiations of the Contract. If the RFP requests submission of the financial proposal, the Sample Form shall be completed and attached to the Financial Form-3. Agreed (at the negotiations) breakdown sheets shall form part of the negotiated Contract and included in its Appendix D or C.
- 1.3. At the negotiations the firm shall be prepared to disclose its audited financial statements for the last three years, to substantiate its rates, and accept that its proposed rates and other financial matters are subject to scrutiny. The Client is charged with the custody of government funds and is expected to exercise prudence in the expenditure of these funds.
- 1.4. Rate details are discussed below:
 - (i) Salary is the gross regular cash salary or fee paid to the individual in the firm's home office. It shall not contain any premium for work away from headquarters or bonus (except where these are included by law or government regulations).
 - (ii) Bonuses are normally paid out of profits. To avoid double counting, any bonuses shall not normally be included in the "Salary" and should be shown separately. Where the Consultant's accounting system is such that the percentages of social costs and overheads are based on total revenue, including bonuses, those percentages shall be adjusted downward accordingly. Where national policy requires that 13 months' pay be given for 12 months' work, the profit element need not be adjusted downward. Any discussions on bonuses shall be supported by audited documentation, which shall be treated as confidential.
 - (iii) Social Charges are the costs of non-monetary benefits and may include, inter alia, social security (including pension, medical, and life insurance costs) and the cost of a paid sick and/or annual leave. In this regard, a paid leave during public holidays or an annual leave taken during an assignment if no Expert's replacement has been provided is not considered social charges.
 - (iv) Cost of Leave. The principles of calculating the cost of total days leave per annum as a percentage of basic salary is normally calculated as follows:

$$\text{Leave cost as percentage of salary} = \frac{\text{totaldaysleave} \times 100}{[365 - w - \text{ph} - v - s]}$$

Where w = weekends, ph = public holidays, v = vacation, and s = sick leave.

Please note that leave can be considered as a social cost only if the Client is not charged for the leave taken.

- (v) Overheads are the Consultant's business costs that are not directly related to the execution of the assignment and shall not be reimbursed as separate items under the Contract. Typical items are home office costs (non-billable time, time of senior Consultant's staff monitoring the project, rent of headquarters' office, support staff, research, staff training, marketing, etc.), the cost of Consultant's personnel not currently employed on revenue-earning projects, taxes on business activities, and business promotion costs. During negotiations, audited financial statements, certified as correct by an independent auditor and supporting the last three years' overheads, shall be available for discussion, together with detailed lists of items making up the overheads and the percentage by which each relates to basic salary. The Client does not accept an add-on margin for social charges, overhead expenses, etc. for Experts who are not permanent employees of the Consultant. In such case, the Consultant shall be entitled only to administrative costs and a fee on the monthly payments charged for sub-contracted Experts.
- (vi) Profit is normally based on the sum of the Salary, Social costs, and Overheads. If any bonuses paid on a regular basis are listed, a corresponding reduction shall be made in the profit amount. Profit shall not be allowed on travel or any other reimbursable expenses.
- (vii) Away from Home Office Allowance or Premium or Subsistence Allowances. Some Consultants pay allowances to Experts working away from headquarters or outside of the home office. Such allowances are calculated as a percentage of salary (or a fee) and shall not draw overheads or profit. Sometimes, by law, such allowances may draw social costs. In this case, the amount of this social cost shall still be shown under social costs, with the net allowance shown separately.

UNDP standard rates for the particular country may be used as reference to determine subsistence allowances.

Section 7. Terms of Reference

KHYBER PAKHTUNKHWA RURAL INVESTMENT AND INSTITUTIONAL SUPPORT PROJECT (KP-RIISP)

TERMS OF REFERENCE FOR

Comprehensive Master Plan for Integrated Irrigation Infra-structure development & Water Resource Management Plan in Merged Districts/Sub-Divisions with Feasibility Studies, Detailed Designs and Construction Supervision of high priority schemes.

BACKGROUND OF THE PROJECT

Khyber Pakhtunkhwa (KP), the third most populous province in Pakistan, has achieved significant strides in reducing poverty in recent years. Despite this progress, certain areas within the province continue to face vulnerabilities. The poverty rate in KP decreased from 73.8 percent in the fiscal year 2002 to 27 percent in the fiscal year 2014, marking the most substantial decline among all provinces in Pakistan. However, a considerable portion of KP's 30.5 million residents, as well as three-quarters of the five million inhabitants in the former Federally Administered Tribal Areas (FATA, now referred to as Newly Merged Areas or NMA), still grapple with multidimensional poverty.

With over 30 percent of the population falling between the ages of 15 and 29, the youth face limited opportunities, and the unemployment rate stands at 11%. The majority of KP's population, approximately 85 percent, resides in rural areas where access to public services is not only inferior but also deteriorating. In rural areas, only two-thirds of the population have access to improved water sources, compared to 94 percent in urban areas. Additionally, the share of rural households with access to piped water sources has declined from 40 to 29 percent between 2005 and 2015 due to crumbling infrastructure.

The challenging conditions, compounded by malnutrition and inadequate access to clean water, sanitation, and hygiene, contribute to childhood stunting. This issue affects 40 to 49 percent of children under five in both KP and NMA. Gender disparities persist across various outcomes, including access to basic services.

The Newly Merged Areas (NMAs)

The integration of the former Federally Administered Tribal Areas (FATA) into Khyber Pakhtunkhwa in 2018 represents a significant development opportunity for both the province and the nation. The Newly Merged Districts (NMD) encompass a vast area of 27,200 square kilometers, housing a population of approximately 4.8 million. This region consists of eight districts Bajaur, Mohmand, Khyber, Kurram, Orakzai, North Waziristan, and South Waziristan (Upper) and South Waziristan (Lower) that collectively constituted the erstwhile FATA. Additionally, six adjacent tribal areas, previously known as the Frontier Regions (FR) and now termed Sub-Divisions, include Peshawar, Kohat, Bannu, Lakki, Marwat, Tank, and Dera Ismail Khan.

The NMD currently lags behind in various socioeconomic and developmental indicators. During the merger, historical factors, as well as institutional and administrative systems in these areas, contributed to low levels of basic service provision and development outcomes. At that time, these regions exhibited some of the lowest and least developed indicators in the country, as illustrated in Table I.

Table I: Selected Comparative Indicators for NMD, KP and Pakistan (2018)

Indicator	NMD	KP (excluding NMD)	Pakistan averages
GNI (per capita) (2018)	US\$ 2,509	US\$ 4,328	US\$ 5,190
Human Development Index	0.216	0.628	0.557
Percent of population below poverty line	52.0%	40.0%	24.3%
Net enrollment rate (primary)	52.1%	59.0%	73.8%
Maternal Mortality Rate (per 100,000)	395	275	140
Immunization of children (%)	33.9%	40.0%	60.6%
Population with access to improved drinking water	46.7%	91.3%	92.6%

Institutional development

A crucial factor contributing to the limited development outcomes in the merged areas is the enduring absence of significant state presence. Historically, the FATA region operated under a political, administrative, and judicial system designed during the colonial era, effectively isolating its residents from the prevailing systems in the rest of the country. This administrative and political framework persisted into the formation of Pakistan, where tribal areas adhered to Rewaj (customs), a tribal code governing dispute resolution through Jirga, collective responsibility imposition, and mutual restraint and revenge.

Remaining outside the jurisdiction of provincial administration systems, the tribal areas were overseen by a FATA Secretariat (established in 2006), responsible for planning, implementing, and monitoring development activities in the region. In 2018, the Newly Merged Areas (NMA) were brought under the legal and governmental authority of the Government of Khyber Pakhtunkhwa (GoKP). Following this merger, residents of NMA expressed heightened expectations for improved service delivery, particularly in essential areas such as clean water, food security, education, and health.

The Tribal Decade Strategy (2020-2030) emphasizes the expansion of administrative and service delivery systems as a crucial prerequisite for enhancing development outcomes in regions grappling with some of the highest poverty rates in Pakistan.

The Project

The Government of Khyber Pakhtunkhwa (GoKP) has formally sought the assistance of the World Bank, requesting a US\$300 million IDA Credit. This financial support will be provided in two successive phases over an eight-year duration. The primary goal is to enhance access to resilient and dependable basic services for households situated in the newly merged areas of Khyber Pakhtunkhwa. The Khyber Pakhtunkhwa Rural Investment and Institutional Strengthening Project (KPRIISP), constituting the first phase of the program, aims to fortify state capabilities in delivering basic services and constructing climate-resilient infrastructure within the project areas, with a specific focus on aiding the poor and vulnerable populations. The initial phase involves a funding commitment of US\$200 million spanning six years. This allocation addresses a crucial financing gap within the province's objectives, facilitating the effective management of the transition toward local governance and the enhancement of development outcomes in the recently merged districts.

Project Components

The project encompasses support for five key components:

Component A: Multisectoral Investments and Improved Service Delivery (US\$90 million)

This component aims to finance multisectoral infrastructure investments in water supply, sanitation, rural roads, and agriculture sectors within the newly merged districts and frontier regions of the province. It involves the establishment, refurbishment, or expansion of service delivery centers and facilities at district and sub-divisional levels. This ensures the extension and presence of administrative and sectoral systems and services.

Component B: Institutional Development of Merged Areas (US\$55 million)

Focused on bolstering state responsiveness to citizens, this component finances investments in lower tiers of government and service delivery. It includes institutional strengthening and capacity building of village councils and communities for participatory planning, budgeting, monitoring, social accountability systems strengthening, community development, and behavioral change outreach. Conditional grants are provided to village councils for local infrastructure priorities aligned with community preferences. Local public service delivery centers at the tehsil level facilitate access to services, particularly civil and vital records.

Component C: Emergency Flood Response (US\$50 million)

This component supports the Government of Khyber Pakhtunkhwa (GoKP) in flood recovery and reconstruction efforts while enhancing climate resilience. Funding is allocated for the reconstruction and rehabilitation of public infrastructure damaged by floods, encompassing roads, bridges, public buildings (especially elementary schools and basic health units), and irrigation and flood protection infrastructure. Design principles prioritize improved standards and climate resilience to ensure building back better and increased protection from climate-related extreme weather events.

Component D: Project Management, M&E and Technical Assistance (US\$5.0 million)

Dedicated to supporting the effective implementation of the Project, this component assists the GoKP in coordinating all project-related activities, monitoring, technical assistance, and training.

Component E: Contingent Emergency Response Component (US\$0 million)

In the event of an eligible crisis or emergency, this component allows the Borrower to request the Bank to re-allocate project funds to support emergency response and reconstruction.

OBJECTIVES OF THE ASSIGNMENT

In the Newly Merged Districts (NMDs), there has not been a systematic assessment of the scope, potential, and availability of water resources. Additionally, the evaluation of the current and prospective water infrastructure, including rivers, irrigation channels, small dams, check/mini dams, tube-wells, dug-wells, and lift irrigation schemes (some powered by solar energy), has not been conducted comprehensively. Flood Management Measures (FMM) encompass structures like Flood Protection Works (FPW), retaining walls, dams, and embankments.

The potential for utilizing subsurface water from natural streams for irrigation purposes, whether through methods like infiltration galleries or underground weirs, and exploring opportunities for recharging ground aquifers remains unexplored. Similarly, numerous irrigation schemes are either non-functional or partially functional due to flood damages, and there is potential for their rehabilitation and improvement.

The primary aim of the consulting services is to support the Irrigation Department in several key tasks:

- a) Evaluate water resources and formulate a comprehensive master plan for water resources development in each of the eight merged districts and six sub-divisions frontier regions (FRs).
- b) Identify and prioritize schemes with a high level of urgency for implementation, with feasibility studies.
- c) Prepare detailed designs and support in preparation of the bidding documents for selected priority schemes (approximately 2-3), including the necessary social and environmental assessments and studies.
- d) Oversee the construction of priority schemes through diligent supervision and management.

SCOPE OF WORK

The detailed scope of work will include, but is not limited to, the following tasks:

Task-A: Development of A Master Plan

The primary task for this project is the development of a comprehensive master plan for irrigation assets in the merged areas. The newly merged districts (NMDs) face several pressing challenges related to irrigation, flood management, and water resource development. These challenges necessitate the creation of a strategic framework that addresses the following:

- Efficient water resource management to ensure sustainable agriculture and water availability for the population.
- Effective flood management to mitigate the impact of flood disasters, especially in the context of climate vulnerabilities.
- Infrastructure planning and development to support irrigation and flood control.
- Identification of priority schemes to allocate resources efficiently.

The selected consultant will be responsible for conducting an in-depth analysis and preparing a master plan that addresses the following key components:

- Comprehensive assessment of surface water availability in the main rivers and their major tributaries within the merged areas.
- Detailed assessment of flood discharges and flood limits to aid in flood management and mitigation.
- Identification of water sector projects and flood mitigation proposals in the main rivers and their major tributaries.
- Development of structural and non-structural interventions to manage water resources and mitigate floods.
- Compilation of an inventory of existing irrigation assets including flood protection works and other infrastructure in flood plains.
- Marking of flood limits to prevent encroachments in waterways.
- Assessment of surface water availability to support agriculture and other sectors in the merged areas.

Consultant Activities

The work and activities in this task would include, but not limited to the following:

- i. Conduct a comprehensive water resources assessment within the Merged Areas, encompassing districts such as Bajaur, Mohmand, Khyber, Kurram, Orakzai, North Waziristan, South Waziristan Upper, and South Waziristan Lower. This assessment will identify the location, extent, dependability, and quality of water resources.
- ii. Gather recent and historical meteorological, hydrological, geological, geo-technical, and agricultural data pertinent to the target areas. This data includes information on precipitation, evaporation, river flow, surface storage, soil moisture, groundwater, and population use. Additionally, assess the projected population growth in the area.
- iii. Determine the origin of water resources, particularly examining whether they originate or flow across international boundaries, thus categorizing them as international waterways. Evaluate any international treaties or agreements governing their use.
- iv. Develop a water master plan for each of the merged areas, outlining a medium and long-term horizon of 10, 15, 20, and 25 years. This plan should reflect the overall availability of water

resources and present a decade strategy for their development. The strategy should propose clear criteria for identifying priority investments and areas, along with a sequencing approach for the merged areas over the next ten to 25 years.

- v. Provide rough cost estimates for the identified investments, specifying their implementation period. Offer an optimal investment strategy/plan that considers the available resources for investment.
- vi. Identify, based on agreed criteria, investments that need to be undertaken in the short to medium term, including those that can be included in this Project.
- vii. Conduct feasibility studies (technical, social, and environmental) for priority investments to be financed by the Project. These investments are derived from the priority list and should not adversely impact the flows of international waterways.

Expected Outputs and Deliverables

- i. Taking into consideration the security situation and accessibility challenges in some of the merged districts, the consultant will formulate the master plan on a district-wise basis, with a preference for districts free from security or accessibility issues. The sequence for master planning will be Orakzai, Khyber, Kurram, Mohmand, Bajaur, North Waziristan, South Waziristan (Upper), and South Waziristan (Lower). The consultant will submit interim master planning reports for each district, emphasizing prioritized projects for subsequent design and construction supervision. The steering committee will review and approve the identified projects, which will then undergo design by the consultant. Tender documents will be prepared and advertised for the contract award of construction. These district-wise reports will later be amalgamated to create the final master planning report encompassing the entire Newly Merged Areas (NMAs).

Table-2: Tentative Schedule of Deliverables Task-A (Will be included in the Contract)

S. No.	Deliverable	Months from Contract Signing

4.3	Master Plan for SW(Lower)	Eight Months
5	Final Master Plan for Merged Areas	Ten Months

Task B: Preparation of Detailed Designs and support in preparation of the Biding documents

The scope of work and activities under this Task would include, but is not limited to, the following:

- i. Develop detailed designs for priority schemes, conducting comprehensive designs suitable for the bidding process, and prepare corresponding bidding documents for irrigation water schemes prioritized in the water resources assessment and the water master plan outlined by the consultants for the merged areas as detailed above. In cases where designs for priority schemes are already available, the Consultant will review and suggest any necessary modifications.
- ii. The Consultant will conduct essential topographical surveys and other site investigations, including soil and water sampling where necessary, utilizing appropriate ground-based technology, satellite imagery, GIS, and other computerized systems. This data collection process is vital for engineering studies, as mentioned earlier, and for the preparation of detailed designs. The Consultant will employ the necessary studies, geological investigations, and adhere to acceptable standards for geometric and structural designs, ensuring the integration of climate resilience in the proposed designs.
- iii. Identify and evaluate land needs, as well as potential requirements for land acquisition for the facilities outlined in each sub-project.
- iv. Collaborate with the Irrigation departments to formulate typical designs for the facilities, ensuring they can be easily adapted to specific site conditions during the detailed design stage. Establish criteria based on the availability of local construction materials, functionality, accessibility, usage, topographic conditions, existing communication networks, centrality to the population to be served, demarcation of the target population, minimizing operation and maintenance (O&M) during operation, and considering possible changes throughout the life of the proposed facilities.
- v. Generate estimates for construction quantities, materials, and equipment, and formulate detailed cost estimates based on the prevailing Market Rate Schedule. Present the estimates in a proper engineering format, incorporating suitable physical and price contingencies, and provide a breakdown by major work items.
- vi. Develop a bill of quantities, specifications, and detailed engineering drawings illustrating any new construction and rehabilitation works required for existing facilities.
- vii. Create cost estimates for the annual operation and maintenance (O&M) of facilities to be constructed under the project. Outline the budgetary requirements, as well as the necessary manpower and resources for effective O&M.
- viii. Formulate and recommend the optimal approach to package the development of selected facilities. Propose a procurement strategy, method of procurement, and a timetable with

- specific timelines for the procurement and construction of each package, including completion and handover for regular use.
- ix. Conduct environmental and social assessments, and develop social and environmental management plans for each cluster, package/sub-project, or facilities included in a group.
 - x. Prepare the Engineer's cost estimate for each contract package in a standardized manner, incorporating appropriate levels of contingencies, taxes, duties, etc.
 - xi. Undertake the preparation of detailed designs for all construction, equipment, plants, and facilities, covering various work activities, with due consideration to:
 - a. Consideration of site conditions, technical standards, usage, aesthetics, and ergonomics.
 - b. Exploration of technological innovations to meet requirements with cost-effective solutions, encompassing technology and construction methods.
 - c. Conduct geo-technical investigations and laboratory analyses to determine basic design parameters for structures, and identify suitable construction materials (and/or disposal areas as needed) for material and concrete aggregates. The consultants will specifically carry out technical, environmental, and social impact analyses of any materials generated during construction activities, along with preparing detailed designs for their safe disposal.
 - d. Establish criteria for detailed designs, including supporting computations for proposed office and administrative structures and/or other infrastructure works according to recognized international standards. Drawings will be prepared to the extent that allows for accurate cost estimates and facilitates contractors in preparing their bids and construction drawings.
 - e. Selection of appropriate materials, optimization of designs, and identification of cost-effective options meeting technical requirements. Estimate quantities of construction materials, etc., for the preparation of bidding documents.
 - f. Conduct hydrological studies to determine water requirements, availability, projected demand, proposed extraction levels, and the upstream and downstream impact of extractions.
 - g. Analyze water disposal, its impact on water quality and quantity in the disposal area, estimate treatment requirements for proper disposal, etc.
 - h. Assess the hydrology of the area, drainage, and flood management systems, ensuring facilities are protected from extreme floods, landslides, rock and boulder movements, earthquakes, fires, and other natural calamities and disasters.
 - i. Develop technical specifications, architecture, and engineering drawings necessary for tender documents, bill of quantities (BOQs), specifications, and bidding documents. The bidding documents will be prepared as per approved procurement plan following the formats and standards defined in the World Bank Procurement Regulations for such works, utilizing World Bank Standard Procurement Documents for contracts to be procured.

- j. Prepare engineer's cost estimates for works/contracts, along with requirements for construction supervision, including facilities, material testing labs, on or off-site as needed, equipment, staffing, or any other special requirements.
- k. Compile a comprehensive design report, including an Environmental Management Plan, Social Management Plan, Resettlement Action Plan, and any other site-specific plans aligned with the project's Environment and Social Management Framework.
- l. Install a web-based electronic live monitoring system on the construction site with sufficient details to facilitate remote construction supervision. The requirements and installation of this system will be incorporated as a requirement in the BOQ as paid items for each contract implemented under the Project.

Environment and Social Impact Assessments, Occupational health and safety plans and preparation of Plans

Prior to commencing the detailed design of various contracts, the Consultants will undertake a comprehensive Environmental and Social Impact Assessment (ESIA). This process will involve identifying land requirements, ownership, and potential environmental and social issues associated with the construction of infrastructure, facilities, and the approach roads to be constructed. Initially, it is anticipated that the government will provide the necessary land for these facilities, and this will be confirmed during the environmental and social assessments. The required social management plan, as well as the land acquisition and detailed Resettlement Action Plan (RAP), will be prepared, if necessary, in accordance with World Bank Guidelines for works covering each contract. The ESIA will identify and provide a management plan for environmental and social issues (ESMP), developed in consultation with the project area, following World Bank guidelines and adhering to the procedures and guidelines of the KP Government. The project ESMPs and other documents would be prepared in line with the project Environment and Social Management Framework (ESMF), available on <https://pndkp.gov.pk/2022/12/13/khyber-pakhtunkhwa-rural-investment-and-institutional-support-project/>.

Additionally, they will support the design of critical infrastructure for any settlement, including approach roads, connectivity, utilities, prepare bidding documents, and conduct construction supervision for development and housing as needed, upon instruction from the GoKP. The RAP will be updated and modified periodically but no less than once a year, reflecting the status of implementation changes on the ground during the implementation period.

Environmental Assessment, Environmental Management Plan, EIAs

The Consultants will prepare an Environmental Assessment and EMP for each package of work under the Project. This EA/EMP will be integrated into the design report, cleared by the World Bank and KP EPA, and updated during implementation according to the defined requirements and procedures. The Consultants will provide support in implementing EMP activities during project implementation, including document preparation, obtaining local permits, discussions with local authorities, resolution of issues, etc.

International Waterway Aspects

Assess whether a sub-project or a set of sub-projects is situated on an international waterway. The consultants should analyze the potential impact of the sub-project beyond national boundaries, if any, and endeavor to quantify such potential impacts in accordance with international procedures commonly employed for projects on international waterways. Develop a framework and support the government in engaging in dialogues with other riparian states about the project's impact, facilitating the attainment of a shared understanding of these impacts.

Occupational Health and Safety Plans (OHS) and Labor Management Plans (LMP)

The consultant would prepare OHS and LMP for each contract package.

The Task A & B (Master Planning & Detailed Design) will be on deliverable based and Task C & D (Construction Supervision & IIAMS-MA) will be based on Time Based contract modality.

PART II

Section 8. Conditions of Contract and Contract Forms

Foreword

1. Part II includes two types of standard Contract forms for Consulting Services (a Time-Based Contract and a Lump-Sum Contract) that are based on the contract forms included in the harmonized Request for Proposals (RFP) (Master Document for Selection of Consultants prepared by participating Multilateral Development Banks (MDBs)).
2. **Time-Based Contract.** This type of contract is appropriate when it is difficult to define or fix the scope and the duration of the services, either because they are related to activities carried out by others for which the completion period may vary, or because the input of the consultants required for attaining the objectives of the assignment is difficult to assess. In time-based contracts the Consultant provides services on a timed basis according to quality specifications, and Consultant's remuneration is determined on the basis of the time actually spent by the Consultant in carrying out the Services and is based on (i) agreed upon unit rates for the Consultant's experts multiplied by the actual time spent by the experts in executing the assignment, and (ii) reimbursable expenses using actual expenses and/or agreed unit prices. This type of contract requires the Client to closely supervise the Consultant and to be involved in the daily execution of the assignment.
3. **Lump-Sum Contract.** This type of contract is used mainly for assignments in which the scope and the duration of the Services and the required output of the Consultant are clearly defined. Payments are linked to outputs (deliverables) such as reports, drawings, bill of quantities, bidding documents, or software programs. Lump-sum contracts are easier to administer because they operate on the principle of a fixed price for a fixed scope, and payments are due on clearly specified outputs and milestones. Nevertheless, quality control of the Consultant's outputs by the Client is paramount.
4. The templates are designed for use in assignments with consulting firms and shall not be used for contracting of individual experts. These standard Contract forms are to be used for complex and/or large value assignments, and/or for contracts above US\$300,000 equivalent or more unless otherwise approved by the Bank.

If this happens, we will notify you and confirm the date that the extended Standstill Period will end.

The debriefing may be in writing, by phone, video conference call or in person. We shall promptly advise you in writing how the debriefing will take place and confirm the date and time.

[At this point in the procurement process] [Upon receipt of this notification] you may submit a Procurement-related Complaint challenging the decision to award the contract. Your complaint must be submitted within the Standstill Period and received by us before the Standstill Period ends.

Further information:

For more information see the “Procurement Regulations for IPF Borrowers (Procurement Regulations) (Annex III).” You should read these provisions before preparing and submitting your complaint. In addition, the World Bank’s Guidance “How to make a Procurement-related Complaint” provides a useful explanation of the process, as well as a sample letter of complaint.

In summary, there are four essential requirements:

1. You must be an ‘interested party’. In this case, that means a Consultant who has submitted a Proposal in this selection process, and is the recipient of a Notification of Intention to Award.
2. The complaint can only challenge the decision to award the contract.
3. You must submit the complaint within the deadline stated above.
4. You must include, in your complaint, all of the information required by the Procurement Regulations (as described in Annex III).
